Making Disciples Among the People of Honduras

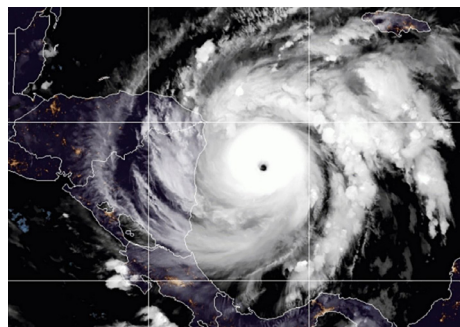

Winter 2020

What a year!

God has been gracious to us!

A bad car accident, COVID-19 and 2 hurricanes.

This has been quite a year for trusting in our God. We are grateful for His protection and provision. Much of what he provided for us he did so through you, our partners in ministry. Thank you for investing your time in prayer and your financial resources in our support. In this way we are able to serve God by investing in the lives of many Hondurans.

Back on the road

We finally have our own wheels again after a 5-month delay due to COVID restrictions, 1 month of paperwork at the police department and 1 ½ months in the repair shop.

20-second summary

We have survived 2020 thus far!

God provided for the repair of the car from the accident and we are back on the road. Although with COVID restrictions there is no place to go.

The first phase of a distance learning curriculum is near distribution to pastors and church leaders in Honduras, Colombia and Peru.

Training pastors during the pandemic

The restrictions on travel and gatherings in response to COVID-19 have required us to pivot our strategies for training pastors and church leaders. Soon we will be delivering micro SD cards with 24 lessons to pastors and church leaders in Honduras, Colombia and Peru.

The first six lessons were taught in a pilot program here in Honduras. Here are some responses from our students.

Roberto

“Several years ago, we were praying that God would send people to teach us the Bible. This program is the answer to this prayer.” It was the first time this young man had any formal training in Bible study. He and his two friends were the first in his church to receive training and were happy to share what they learned.

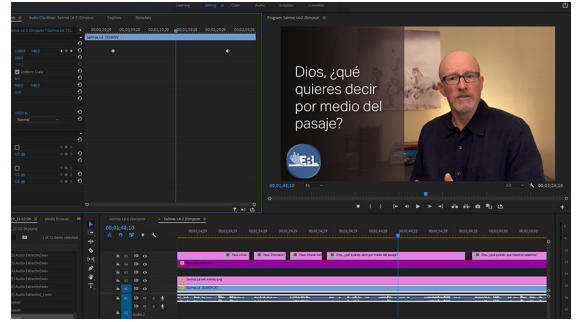

Osmany

“Thank you for helping with this training. We thank all the people of World Reach for their valuable work in online Christian education.”

Gerson

“Thank you for sharing the Word of God through this study of the Bible.”

Producing these classes has been a growing experience for me. Over the past several years I have been learning video production and editing. Since May, I have edited 29 videos for this program which will assist our students through the study guide.

Getting help from my junior editor

Delivering aid after Hurricane Eta

THANK YOU

Thank you for your continued partnership with us in this missions endeavor. Your prayers, words of encouragement and financial investment are ways that we serve God together in his great strategy for his church. May we honor our Lord together as we do this.
