# TIM & CAROL PREWITT

Today is Thursday, June 30, 2022

Dear World Reach

I have just returned from a whirlwind trip to Eastern Europe ministering to our field missionaries in Albania, Macedonia and Romania. It was a great time as we listened to their stories of how the Lord is using them during these challenging days. We met many people impacted by their ministries as they shared their testimonies of life changing experiences. It was such a blessing!

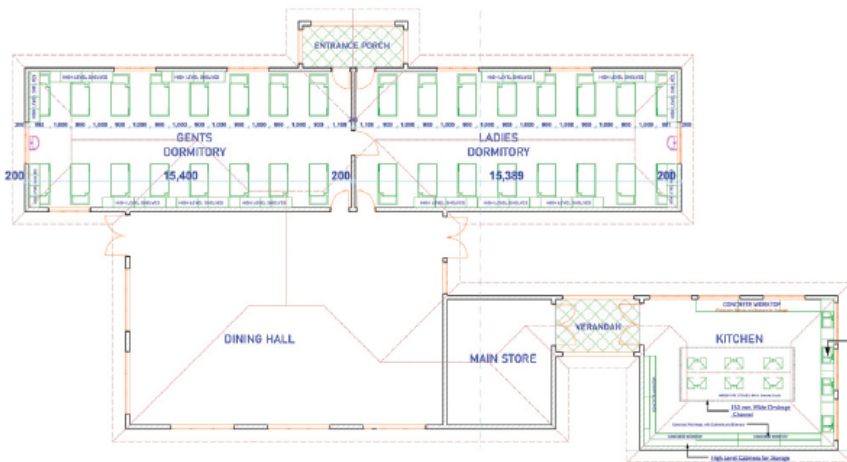

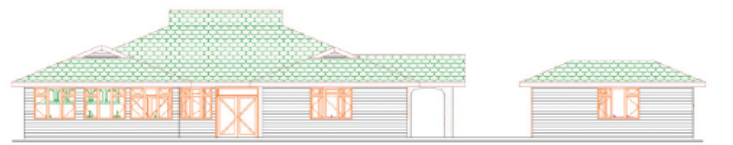

We laughed together, prayed together, cast vision together, all while recalling a myriad of memories. We reminisced about the early days when they went to their respective fields of service! While each field is uniquely different, they all share something in common, people's need for Jesus. This was good for them as it was for Bobby and me!

Now a shift in continents from Europe to Africa!

As you know, we have several projects on our Muthetheni Campus; a new water well (just about completed) and the upgrading of our medical facilities (continuing to make progress). Below you will see plans for our third project, a new BI site that will include a dormitory to accommodate the BI students. Details and pictures below!

Warmly in Christ with much gratitude,

Tim and Carol

Welcome to the World Reach campus located in Muthetheni, Kenya, which has a magnificent view of Mt. Kilimanjaro towering to 19,341’.

This campus provides a number of ministries to the community including a medical clinic, a water well, Biblical courses distributed to patients while waiting to be seen and to local schools in the area and so much more!

Now the good news is that we are adding a permanent Bible Institute site to this location (similar to our Meru site) to better serve the ongoing Biblical training needs of pastors, aspiring pastors and church leaders from this vast area.

As you can see, this facility includes lodging for up to 60 students, a dining hall that will be used for the classroom and so much more.

The cost of this initiative is \$85,000.00 of which we have already received \$35,000.00. PTL! This facility will also be used for WR staff and training center, local churches to hold retreats and other church-wide events. Our hope is to begin construction in early Fall and complete by years end for use starting in March of 2023.

Please join with us in prayer and contributing to meet this opportunity to “Train Today, Tomorrow’s Leaders!” Thank you so much.

Warmly in Christ and with much gratitude,
