## Let us meditate...

### Numbers 28:1-15

This passage develops the theme of offerings. God had commanded the people of Israel to present daily and monthly offerings to provide for the forgiveness of their sins and to maintain fellowship with Him. But there were other reasons implied. Through the offerings, first, the people of Israel were demonstrating obedience to God, since the offerings were to be presented according to the Lord's wishes.

Secondly, through the offerings the parents had the opportunity to teach their children that God was Sovereign, that is, the owner of everything: of their time, their possessions, their crops and their land. Christ is the perfect offering to God, and through faith in Him we have eternal life. Our obedience now comes not from our effort, but from a heart redeemed by His grace and in awe of His glory. This life changed by Christ is the example that our sons and daughters should imitate; it is the best legacy we can leave them.

## Family news

Thanks to God we have been in very good health, with some flu and allergic problems due to the weather changes in Siguatepeque, but nothing serious. With our oldest daughter we have started the process of adolescence, we are beginning to observe normal changes of age, we pray that God will give us wisdom to guide her through these changes. Hana has finished her classes and is on vacation and very excited about it. Eliana still has 2 math classes to finish her school year and Michelle, the youngest, is in the middle of first grade, she will probably be finishing at the end of the year, but we hope that at the end of July they can have two weeks without classes, before starting the new school year. Despite the delays they are happy about the home study system and we thank God for that. It is not always easy for us to be parents and teachers with Michelle, because sometimes we exercise parental authority and forget our vocation as teachers, we ask you to please support us in prayer to be the parents and teachers that they need with God's support. We share with you that Hector's mother is going through a cancer process and the tumor has increased. She is waiting to be evaluated again, but the situation in Ecuador is complicated by the protests and has not been able to go to the appointment. Your prayers on her behalf would be of great support, so that God may guide this difficult process that he is allowing her to go through.

## Honduras News

Like most countries in the world, Honduras is going through a tremendous inflation crisis due to the increase in everything. This brings with it an increase in crime and serious social problems. In spite of the above, we have seen that there is an awakening in the rural areas towards the gospel, especially leaders and pastors with a great desire to be trained to teach others. Undoubtedly, God uses crises and every circumstance to spread his gospel.

## Ministry Activities

We have been meeting at Centro Familiar Cristiano (CFC) church for 4 months now. We thank God because it has been a blessed time where God is working in us and showing his purposes in us as a family. The special thing is that we not only give, but we receive friendship and love from our brothers and sisters, as well as learn from them. Hector is part of the pastoral team of the church, and we are supporting the area of teaching and coordination of the Bible school, also training the teachers that God has raised up in these 4 months, and we are going to start a time of training for new leaders in the area of the diaconate. In addition, we continue under God's guidance, collaborating in the following projects and ministries.

### Discipleship

1.-Discipleship "Among women" God has blessed us with a group of women from different denominations and countries. We meet an average of 12-17 women twice a month.

2.-Discipleship "Growing Together" with this group we have a book club of the book "Profound Changes" and we meet to share what we have learned and the changes that God guides us to make.

3.- We are in the process of starting a discipleship group in the area where we live, initially involving the brothers and sisters of the church who live nearby and gradually inviting other people.

### Mobile Bible Institute

1. The face-to-face meetings with the students of the Instituto Biblico Movil have been reactivated in the following communities: El Duraznal, Guastatoro and Tegucigalpa.

2. In the following months we will be supporting in the edition and design of the first 6 classes of the Mobile Bible Institute.

### Creation of material

We have concluded the writing of the material "Knowing God for women" with the support of other sisters. In these days we will be editing the material and elaborating the videos that will accompany the material. Then we will adapt it to the virtual platform.

### Virtual Classroom

1.-Virtual Classroom  
We are looking at God's grace with the online courses where we have seen an increase in the number of people enrolling. We currently have 120 people enrolled from different places including: Venezuela, Mexico, Guatemala, Honduras, Colombia. Also, there are people who enter our workshops where formal registration is not required, therefore, we cannot count with accuracy.

2.-With the support of Ashley Nault and Tara Brandt, we continue to share monthly devotionals through Podcasts on the World Reach virtual platform.

### Workshops and preaching in support of the local church.

Eventually, we are supporting churches that request training for teachers and leaders. Angelina is in two churches once to train Sunday school teachers.

## Player Requests

- For the changes in the growth stage of our daughters, that God may give us wisdom.
- For our health, that God may continue to strengthen us in this area and show us his purposes.
- May God allow us to teach always under the right motivations and allow the Holy Spirit to be instruments in his hands.
- For each person who is being trained, that God may show the reality of their hearts and that they may truly serve under the guidance of the Holy Spirit.
- May God open the doors so that the online platform can reach those places and people with a desire to be trained.

*We are always grateful to you for being part of the team that God has raised up to join the work that God is doing in Honduras and Latin America.*
