WORLD REACH®
Taking Christ to the Nations

SERVING IN HONDURAS

NOEL & REINA GOMEZ

Beloved brothers and sisters who are collaborating with us in the extension of God's Kingdom, I address you with great joy. I hope you are enjoying abundant blessings in all that you do.

We are doing construction in the mountains of the Lenca region of Honduras, where most of you know we are on a mission to bring the gospel to these unreached areas with the intention of establishing new churches.

God has allowed us to reach many communities with the gospel where, with the help of Pastor Jesús Corea, we have established contact in at least ten communities. Of these, three are already in the process of planting a new church. The places for the new church plants are Qesuntega, El Pinar, and San José. I know there are seven other communities, but we have seen more active growth in the last few months in these three than in the others. The beautiful part of all this is witnessing new converts almost every week; we already have a new group of people wanting to be baptized.

These new believers travel between half an hour to three hours to attend services. Because their homes are so small we have decided that, along with the new church plant, we will be constructing buildings in different locations so that the new believers and the established church in the villages have a place to worship and preach the Word of God. In Qesuntega, we are already quite advanced in terms of many new believers and the establishment of a new church. By God's blessing, we are also close to finishing the first building of the first church planted in the Lenca region. All this is thanks to God's blessing and your collaboration.

Glory and honor to our God for everything that is happening; He deserves all the glory and honor for this and for everything that still needs to be done.

On this occasion, I want to thank God for keeping us safe on our last trip to the mountains. The car that God has lent us had a mechanical failure with its brakes, and we were close to losing our lives. But by the grace of my God and your constant prayers, God kept us alive.

The last trip was a bit uncomfortable as interesting things happened. First, as I mentioned, the incident with the car; then a metal beam fell on my head from a height of about 5 meters; after that, there was rain; and we were without electricity to weld the roof of the building for almost 24 hours. Fortunately, we brought a generator, which unfortunately broke down seriously by the end of the day. The return trip home after four days of work in the mountains, which usually takes two and a half to three hours, took six hours. But thanks to God, we were able to arrive safely. We are already planning the next work trip to lay the cement floor in what will be the new church in Quesuntega, but for this, I ask for the following prayer requests:

PRAYER REQUESTS

1. For our health, that the Lord always provides for our medications.
2. That the Lord provides for me to check my head, as I have had episodes of pain and a concussion after the incident with the metal beam.
3. That God provides for the repair of the car, as it is an important tool for the work we are doing.
4. For our protection.
5. Pray that God continues to give us His grace to reach thousands of people and achieve the goal of planting churches.

Would you partner to provide the support we must raise for the mission of World Reach to serve in Honduras?

- Go to world-reach.org/donate to give once or set up monthly recurring gifts under the campaign for "Gomez".
- Make a check payable to World Reach and mail to the address below with a note indicating your preference for supporting "Gomez ministry".

**IN CHRIST
JESUS,**
