January 2025

Quarterly Update

Happy New Year!

"Hello! I hope your Christmas season was great and enjoyable. Here are some pictures of the end of school year party and Christmas gifts for the children. Thank you so much to our supporters, we appreciate it so much."

*Patrick Mutwiri,
Children's Home Director*

We are excited for 2025! A new year represents a new beginning, a fresh start. That is exactly what the Children's Home offers our kids, a second chance.

In 2025, we need to replace our old dining hall that has much wear and tear after 30+ years of use and also has been destroyed by termites. Although termites in the USA are destructive, Kenyan termites take destruction to a whole new level!

Please pray that we have wisdom and the Lord's financial provision to construct a new dining hall facility. In the new facility, our goal is to include at least 2 floors containing space for a kitchen, dining area, food storage, a library for the children, a recreation area, and extra bedrooms to be used for our older children who attend vocational school or for visiting Bible Institute teachers.

Big things are happening in Kenya, and we are so glad you partner with us to expand His Kingdom! Thanks a bunch and Happy New Year!
